

24 March 2014

To whom it may concern,

It gives me great pleasure to confirm that Jack Galsworthy, Freddie Wright and Archie Hamilton will be fundraising for Brain Research Trust (registered charity no. 1137560) in 2014 by undertaking a 'Rome to Home' cycle in August 2014.

This event will involve both a physical and mental challenge with a cycle of over 1,300 miles, through 6 countries, to be completed in 24 days. The course begins in Rome, then north and through the Alps into Switzerland, Germany, Luxembourg, France and finally finishing in Winchester. We are enormously grateful to Jack, Fred and Archie for their great effort in taking on this demanding task in order to raise funds and awareness of Brain Research Trust.

Brain Research Trust funds basic and clinical research projects into neurological conditions at the world-renowned UCL Institute of Neurology. With no government funding, we rely entirely on our fundraisers, like Jack, Fred and Archie, to help us continue investigating diseases of the brain and nervous system including Alzheimer's and other dementias, Parkinson's Disease, Multiple Sclerosis, Motor Neurone Disease, Epilepsy, Stroke and Brain Tumours.

We hope that you will support Jack, Fred and Archie's fundraising efforts in 2014 and in turn support Brain Research Trust in funding our life-saving research into these devastating neurological disorders.

If you require any additional information please do not hesitate to contact us.

Thank you for your support.

Sarah Courthope
Head of Fundraising

[Funding world-class research into neurological conditions](#)
